

Cairns and Port Trips & Attractions

13th November 2008.

To potential Evolve clients,

The Capta Group have used Evolve Equipment Management for sales and service management of their printing equipment since the day Evolve opened in 2007. We have large multifunction units in Port Douglas, Kuranda and Cairns that are fully serviced and maintained by Evolve's technical staff. The Management and Sales team always provide the best printing/multifunction option to suit our specific needs, not to mention boasting a showroom that is a must-see.

The staff's technical background is appreciated when troubleshooting over the phone, and helps get devices up and running with minimal downtime. Evolve's prompt arrival for repairs, regular maintenance, and despatch of consumables makes dealing with this progressive company an easy task.

I can and do highly recommend Evolve Equipment Management to businesses requiring cost effective printing solutions and more.

Kind Regards
Steve Cullen
IT Manager
The Capta Group.
